

Script Name:

Award Full Amount

Script Type:

Absence Entitlement

Overview

This script is designed to award the full entitlement to an employee via the Absence Entitlement Policy.

Dependencies

No dependencies.

Operation Example

- No operation required. The system will automatically award the full years entitlement when assigned to full entitlement years in the entitlement policy

Configuration

- Assigned within the "Absence Entitlement Policy" in the "script" option on full years only. DO NOT assign to the "less than one year" or you will give the employee full entitlement even if they only worked half the year.

Notable Fields

No Notable fields.
